

Year R Summer 2

Home Learning

Please choose at least one piece of topic homework to complete by Wednesday 18th July 2018.

Please feel free to do as many as you like.

This is an opportunity to share some time and experiences together with your child whilst developing your child's learning.

Don't forget to take photos and stick them in.

To explore measuring the capacity of different containers such as buckets and cups.

Compare how much each container will hold and estimate how many cupfuls it would need to fill a different container.

Use language such as 'empty', 'half-full' and 'full'.

Visit the beach or an aquarium with a grown-up and explore what you might see there.

To make a collage using different materials of a ship or a boat.

Use your words from school in your writing as well as your reading so you can show that you know them really well.

You could write about the activities you have completed.

it	she
was	is
you	for
they	at
on	his

Draw your favourite underwater creature and write down some facts about it that you have found out.

OCTOPUS FACTS

- Octopuses have great problem-solving skills and can often figure out how to escape even the most secure fish tanks. They have even been known to climb on board of floating vessels and open hatches to feed on crabs.
- The Giant Pacific Octopus lives in the coastal waters off British Columbia and is the largest octopus in the world. The largest one caught weighed 600 pounds and its tentacles spanned 33 feet.

- The blue-ringed octopus is one of the most popular species in home aquariums because of their beauty and small size. They are also one of the most poisonous animals on earth!
- Though the blue-ringed octopus is nearly the size of a golf ball, its venom can kill a human being.

What would you take to a deserted island?
Why would you take that?
