

PE & Sport Premium Strategy

What is the Primary School PE & Sport Premium?

For the three school academic years 2013-2014, 2014-2015 and 2015-2016 the government has allocated extra funding to all primary schools to improve Physical Education (PE) and Sport so that they develop pupils' healthy lifestyles. This has been continued into the 2016-2017 financial year.

What should it be used for?

Schools may choose how they use the funding, for example to:

- hire specialist PE teachers or qualified sports coaches to work with primary teachers during PE lessons
- support and involve the least active children by running after-school sports clubs and holiday clubs, e.g. Change4Life clubs
- provide resources and training courses in PE and sport for teachers
- run sport competitions or increase pupils' participation in the 'School Games'
- run sports activities with other schools

How much have we received for 2016 - 2017?

In 2016-2017 College Park Infant School will receive £9,200 for the PE and Sport Premium.

How is our school planning to spend our funding in 2016-2017?

In total, pupils will benefit from this funding in the following ways:

Project	Pupils involved	Cost	Expected Impact
Free extra swimming lessons for specifically identified pupils	Targeted pupils (e.g. girls, ethnic minority, SEND)	£150	<ul style="list-style-type: none"> • Improved ability & confidence of the targeted pupils
Develop staff confidence & expertise in teaching P.E. through use of in-house & external experts.	Whole school 360 pupils	£1,500	<ul style="list-style-type: none"> • Improved knowledge & skills in teaching PE through staff training (twilight sessions & in lessons) • Improved skills & competitive attitudes by entrance & participation in local sports competitions
Facilitate the school's own after-school Active4Life Club	15 pupils each 5 week session (criteria applied as oversubscribed)	£1,800	<ul style="list-style-type: none"> • Pupils are more knowledgeable about healthy foods & lifestyles through making healthy meals, doing physical exercise & undertaking fun learning activities
Run lunchtime sports coaching sessions for each year group weekly	All pupils in each year group 360 pupils	£5,700	<ul style="list-style-type: none"> • Pupils are healthier through extra physical activity • Pupils develop improved PE & sports skills • Lunchtime staff have more ideas & knowledge of PE & sports activities that can be undertaken in the lunchtimes
Maintenance & update of swimming pool running & equipment e.g. dosing system	Whole school 360 pupils	£1,450	<ul style="list-style-type: none"> • Ensured regular swimming lessons for Yrs 1 & 2 • High profile of health & personal water safety • Good levels of pupil fitness

Evaluation & Impact

For the school year from September 2016 to August 2017.

Project	Impact
Free extra swimming lessons for specifically identified pupils	<ul style="list-style-type: none"> • All 6 children pupils exhibited greater confidence by the end of the sessions and were all able to swim a width with aids (from a non-swimmer starting point). • Parents reported that their children had greater confidence in the water, and classteachers reported they were more confident within the weekly class swimming lessons.
Develop staff confidence & expertise in teaching P.E. through use of in-house & external experts.	<ul style="list-style-type: none"> • Staff speak more positively about delivering PE and more confidently about planning for skills progression & adapting activities based on needs. • Teachers are speaking favourably about the impact of new online resources and cascading guidance to support each other. • 'Showcase' summer sports events have had more favourable feedback from parents than traditional 'one-off' sports events, in terms of benefit to pupils.
Facilitate the school's own after-school Active4Life Club	<ul style="list-style-type: none"> • Children have shown increased awareness of healthy lifestyles including asking for certain foods to be added to shopping lists, encouraging family members to try new foods and fitness activities e.g. yoga, wanting to walk to school even in the rain, etc. • Parent questionnaire responses are very positive and there is evidence of wider impact with families trying some of the recipe ideas and joining in workouts at home. • Fitness 'bleep' test results show in total that 53/61 attending the club made progress with the remainder staying at the same level.
Run lunchtime sports coaching sessions for each year group weekly	<ul style="list-style-type: none"> • Pupils exhibit enthusiasm for sports at lunchtime and their verbal feedback shows they recognise their skills have improved. • Lunchtime staff own skills in supervising and leading lunchtime activities have increased. • Uptake for after-school sports clubs has increased with a third club introduced specifically for Year R. • End of year data* for PE shows consistently high numbers of children achieving the expected standard or above and greater consistency in attainment across the four classes in a year group due to classes receiving equal entitlement and consistent teaching. (*Specific info available in P.E. Subject Manager File).
Maintenance & update of swimming pool running & equipment e.g. dosing system	<ul style="list-style-type: none"> • Children in Years 1 & 2 swam regularly with very little disruption to lessons. • The profile of water safety and health remains high. (Children in Year R frequently mention swimming as one of the things they are looking forward to in Year 1). • Children display good levels of fitness and in the vital life skill of swimming (48% of Year 2 children achieved at least 25 metres which is expectation for end of Key Stage 2).
